

Voices & Vision
OF PREVENTION

**How many of you have seen a prevention program
disappear when funding ended?**

Programs succeed
Funding ends
Momentum disappears

As Federal Dollars
Disappear, It's
Time to Invest the
Community's
Change

Stewardship,
Relationships, and
the Future of
Prevention

We often think
sustainability =
funding streams.

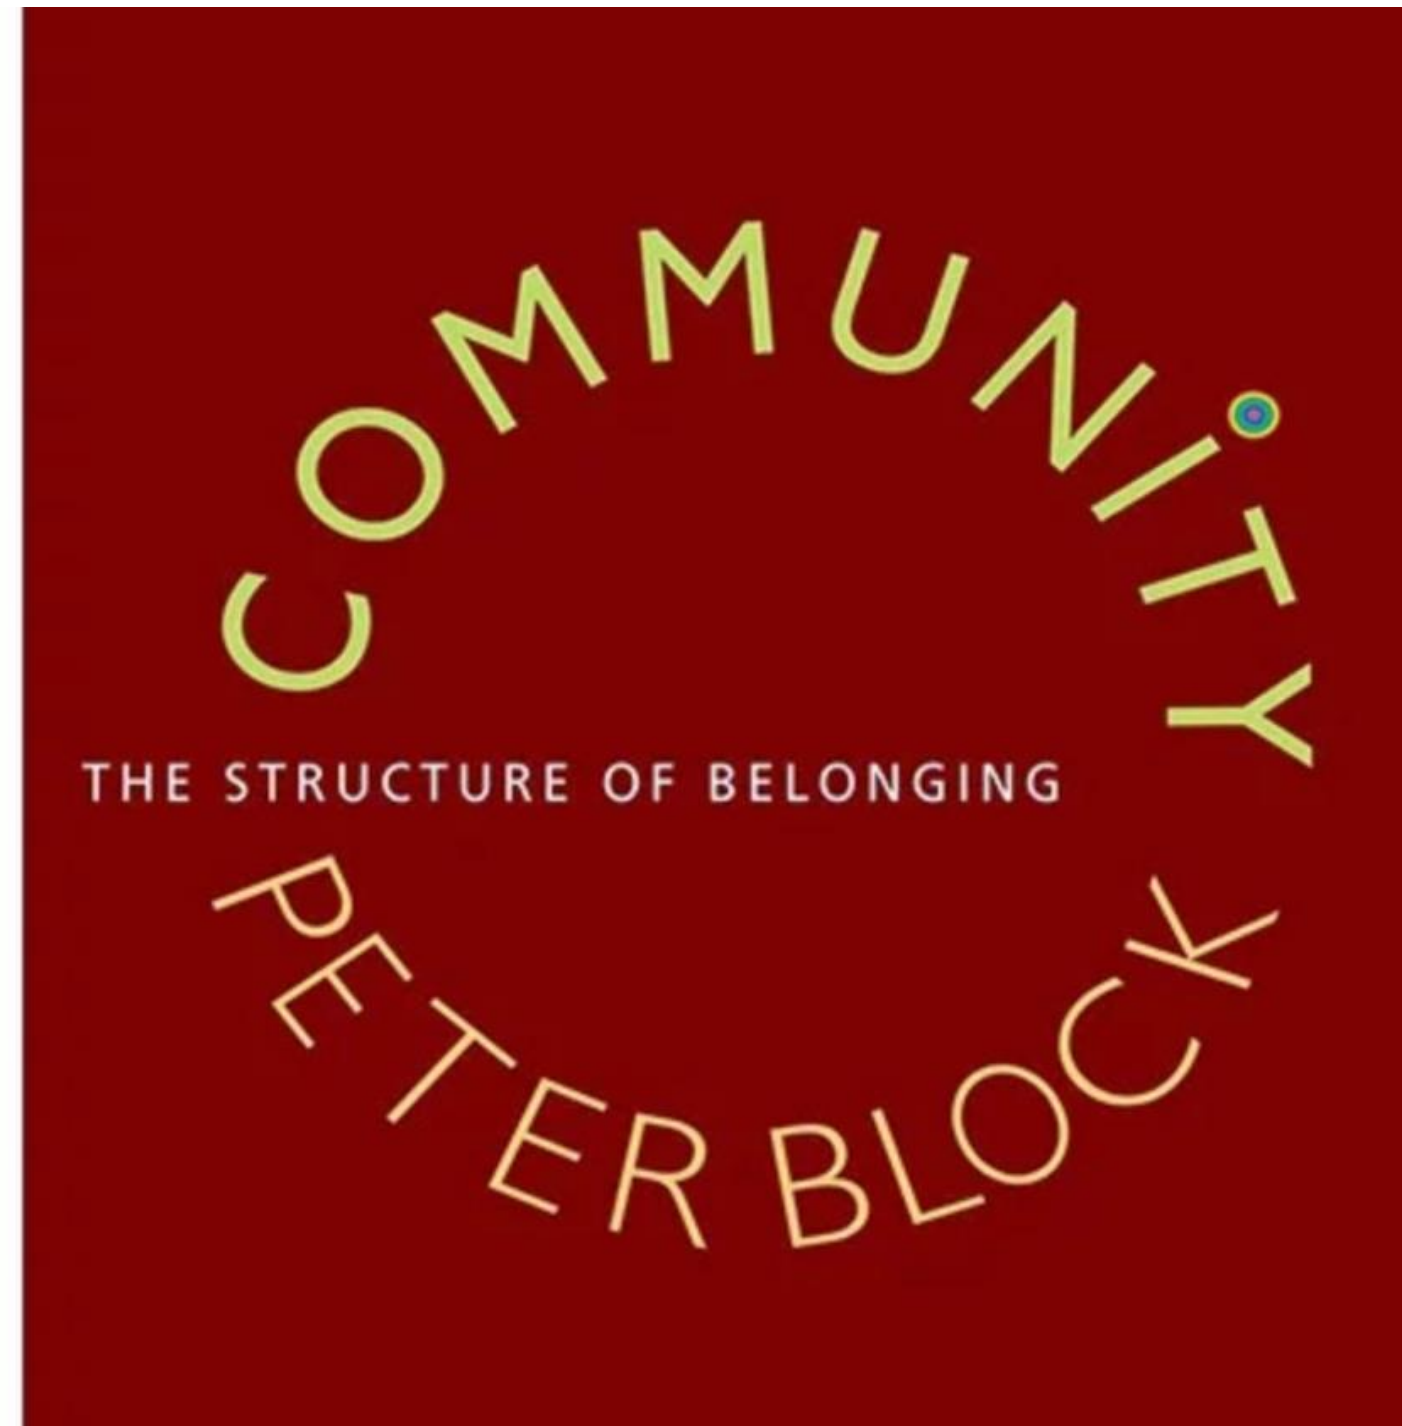

But sustainability
really begins with...

Fundraising is not primarily about money. It's about stewardship and relationships.

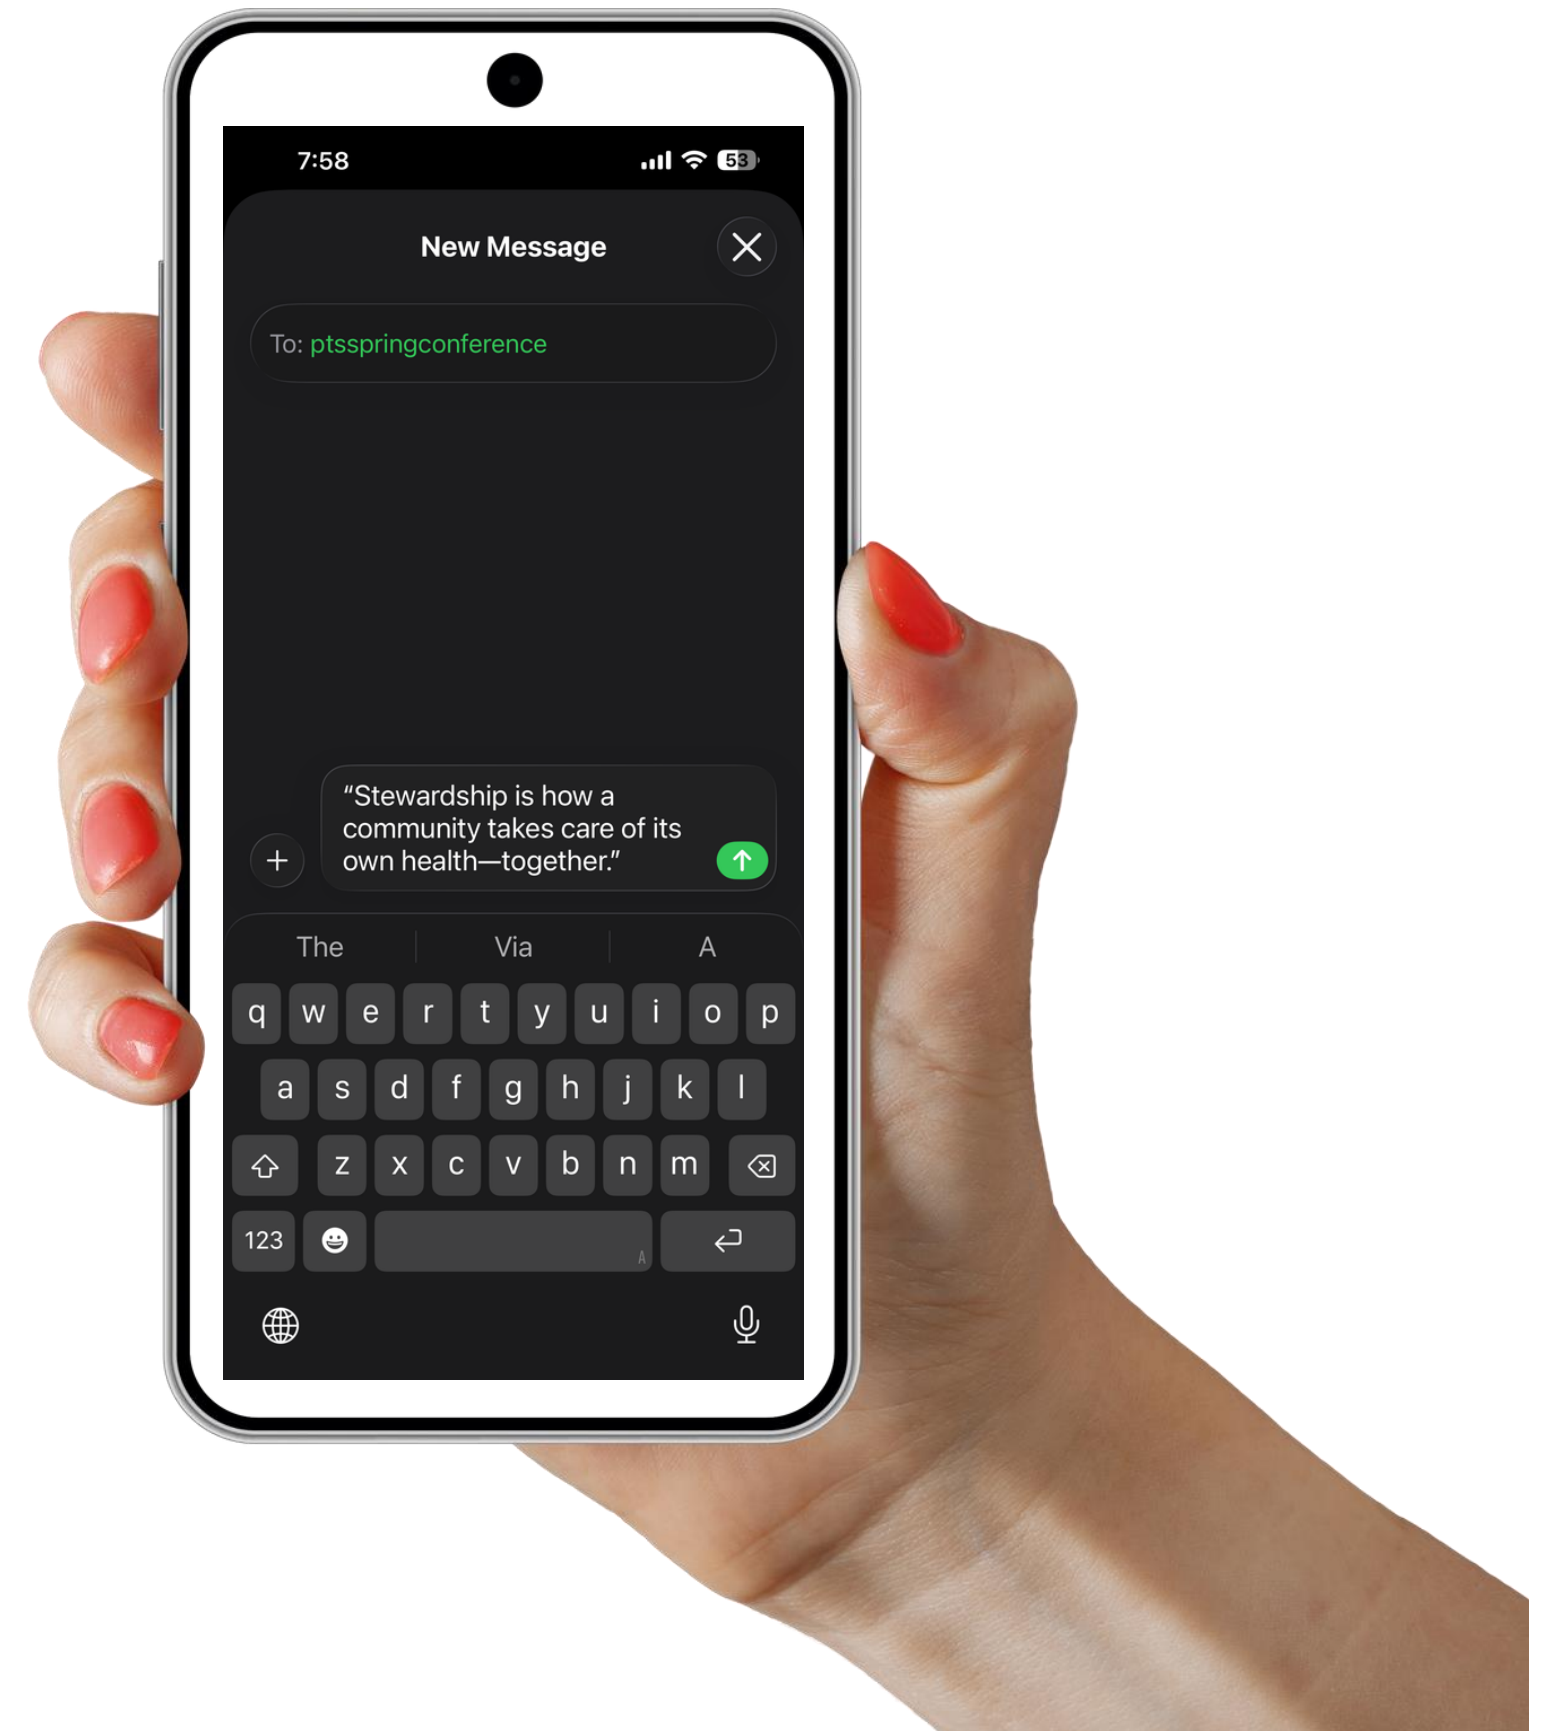

“What kind of community do we want to create?”

- **Prevention**
- **Recovery**
- **Mental Health**

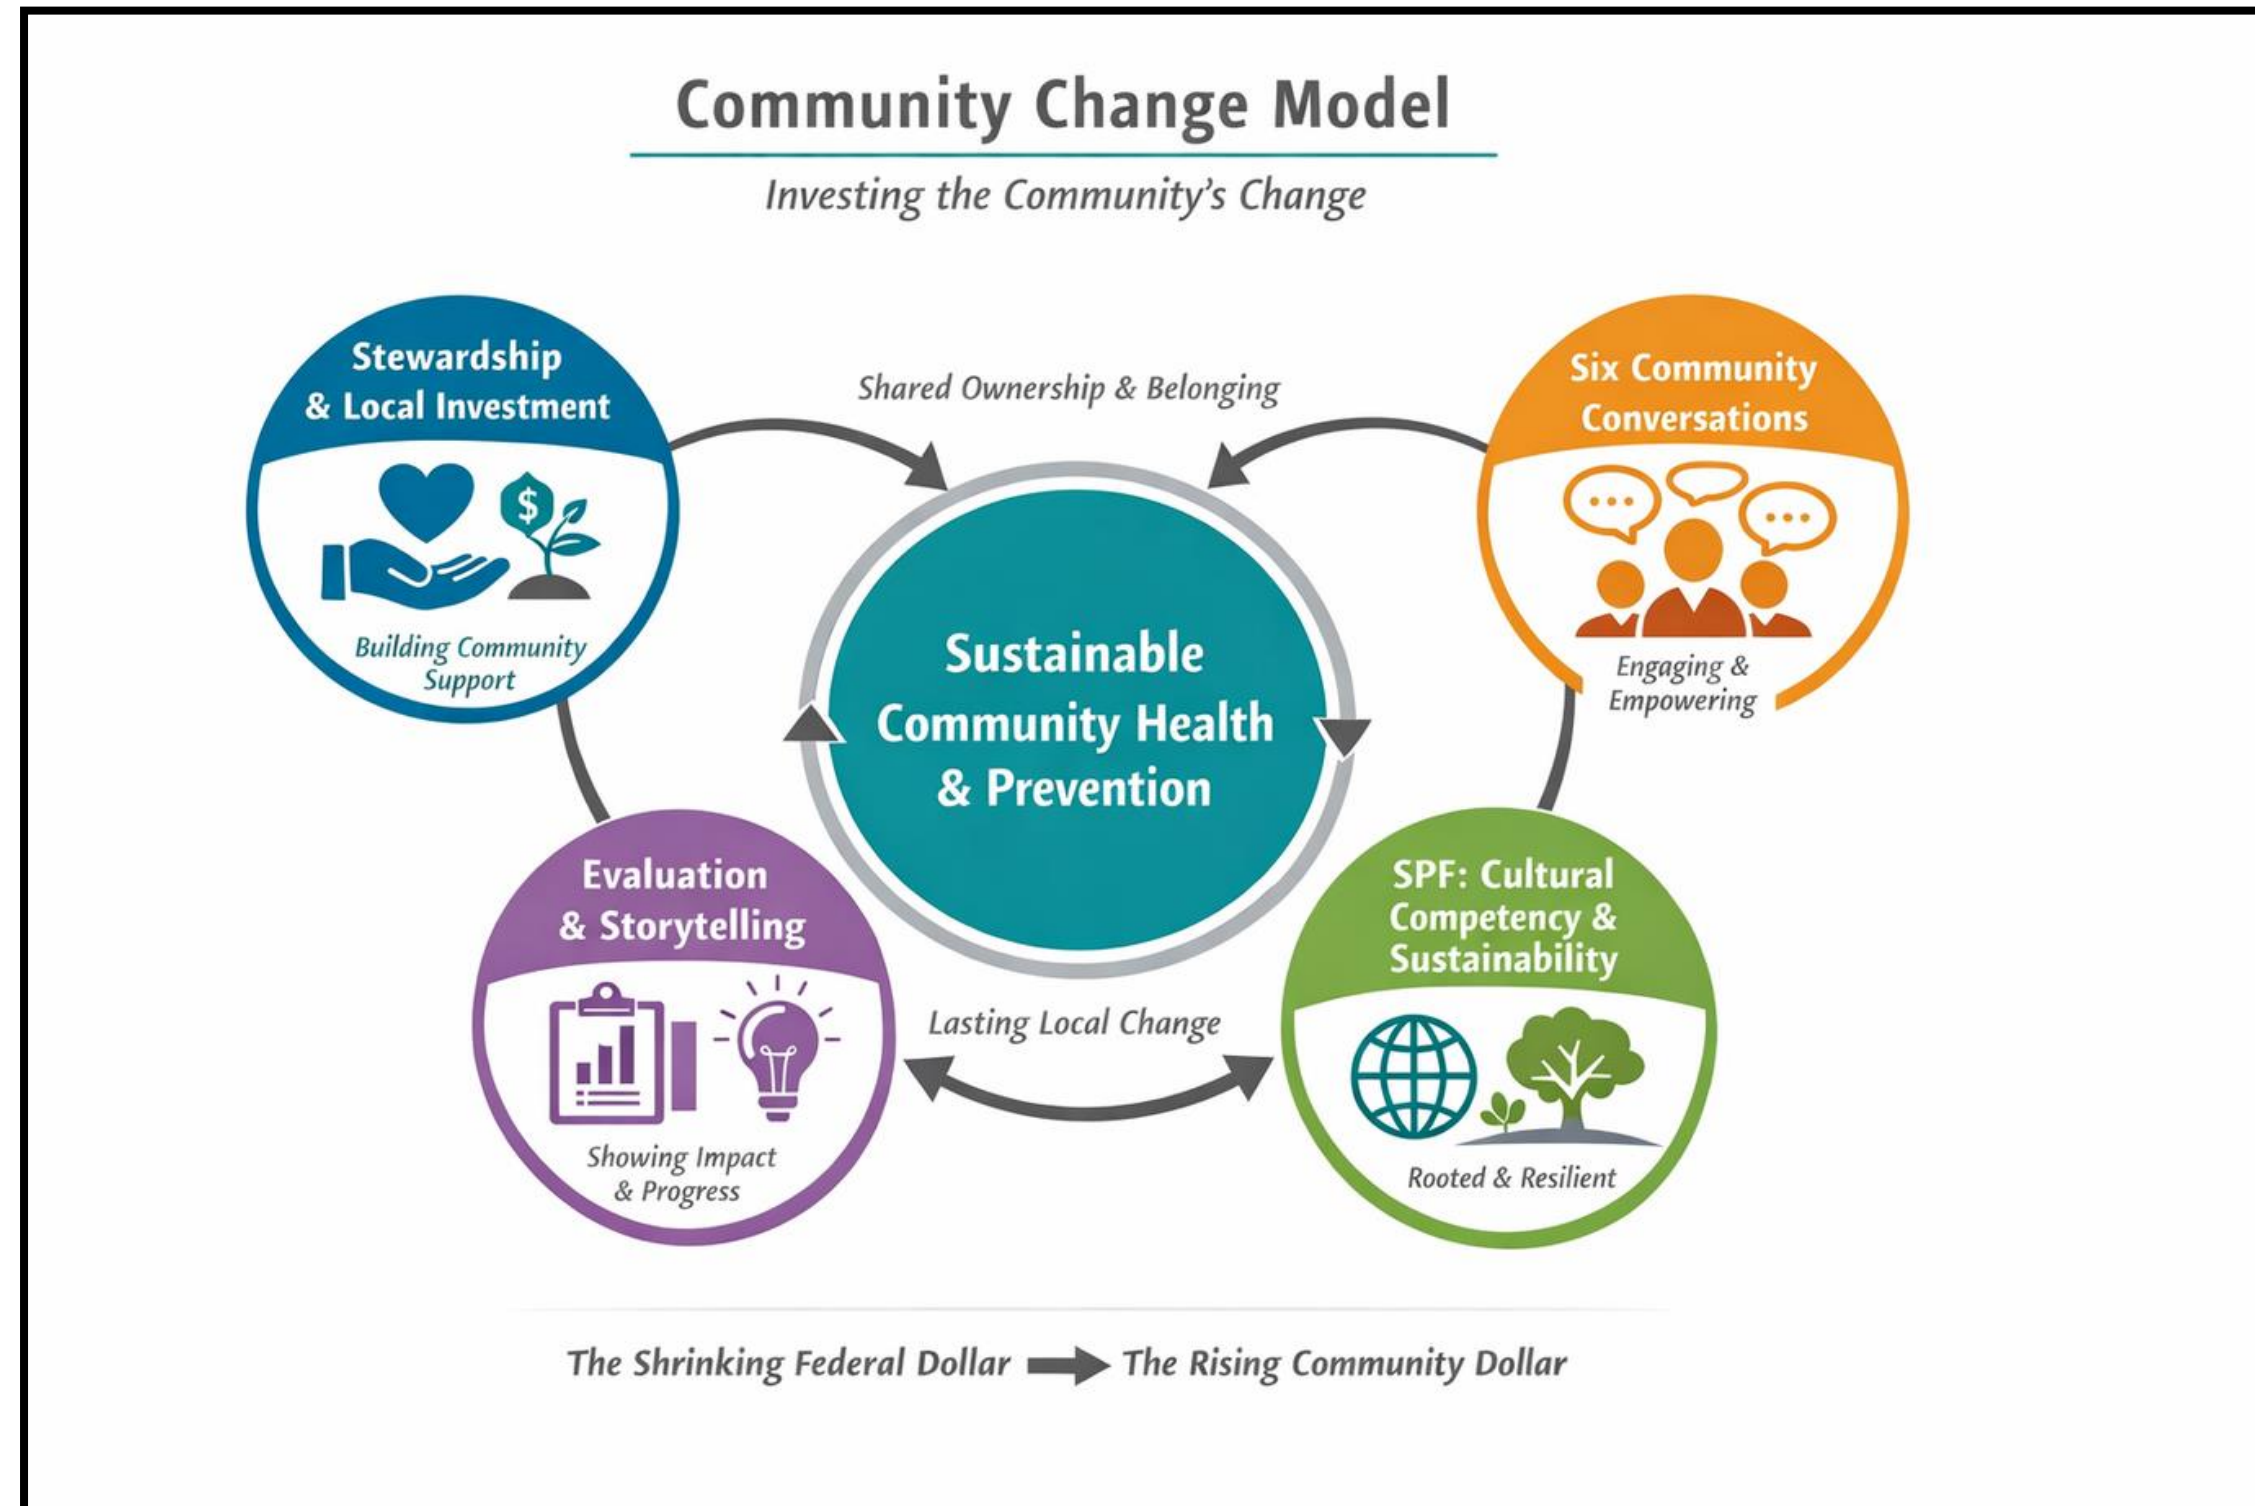

**...Are All Expressions of
Community Health**

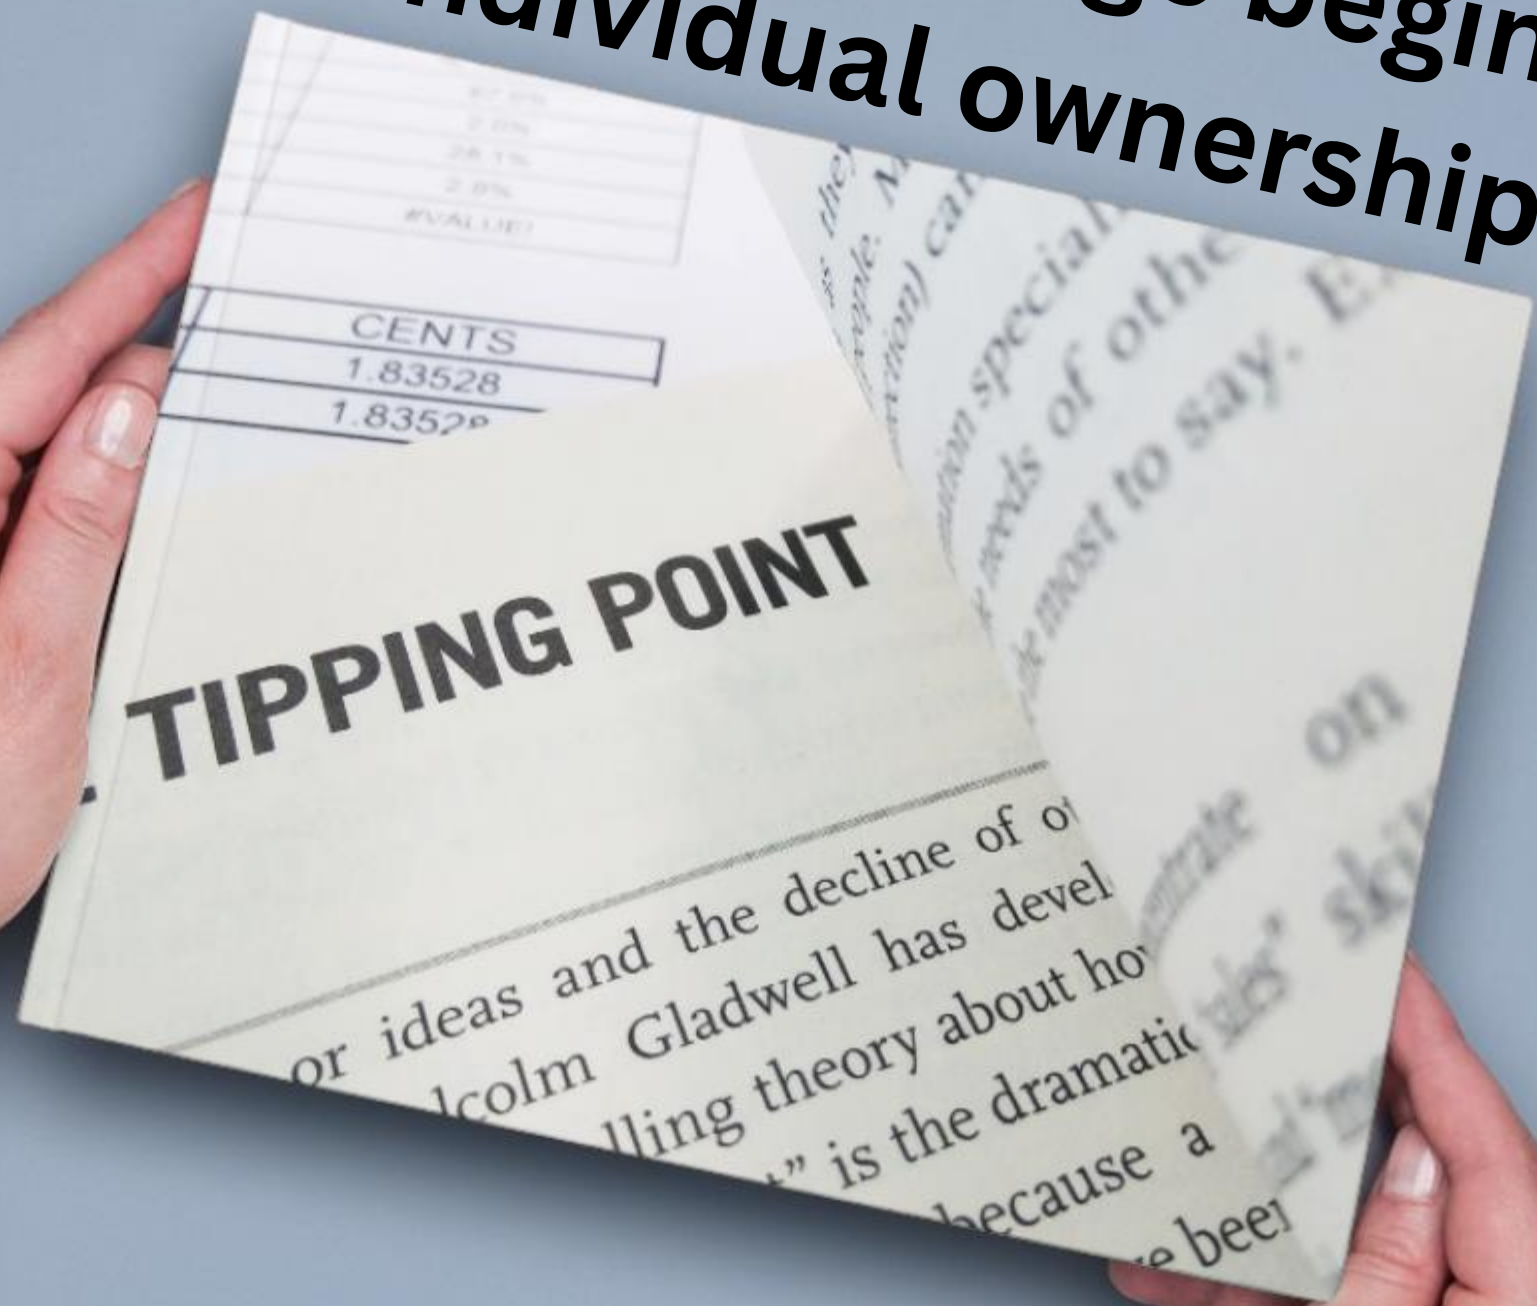

When prevention works...

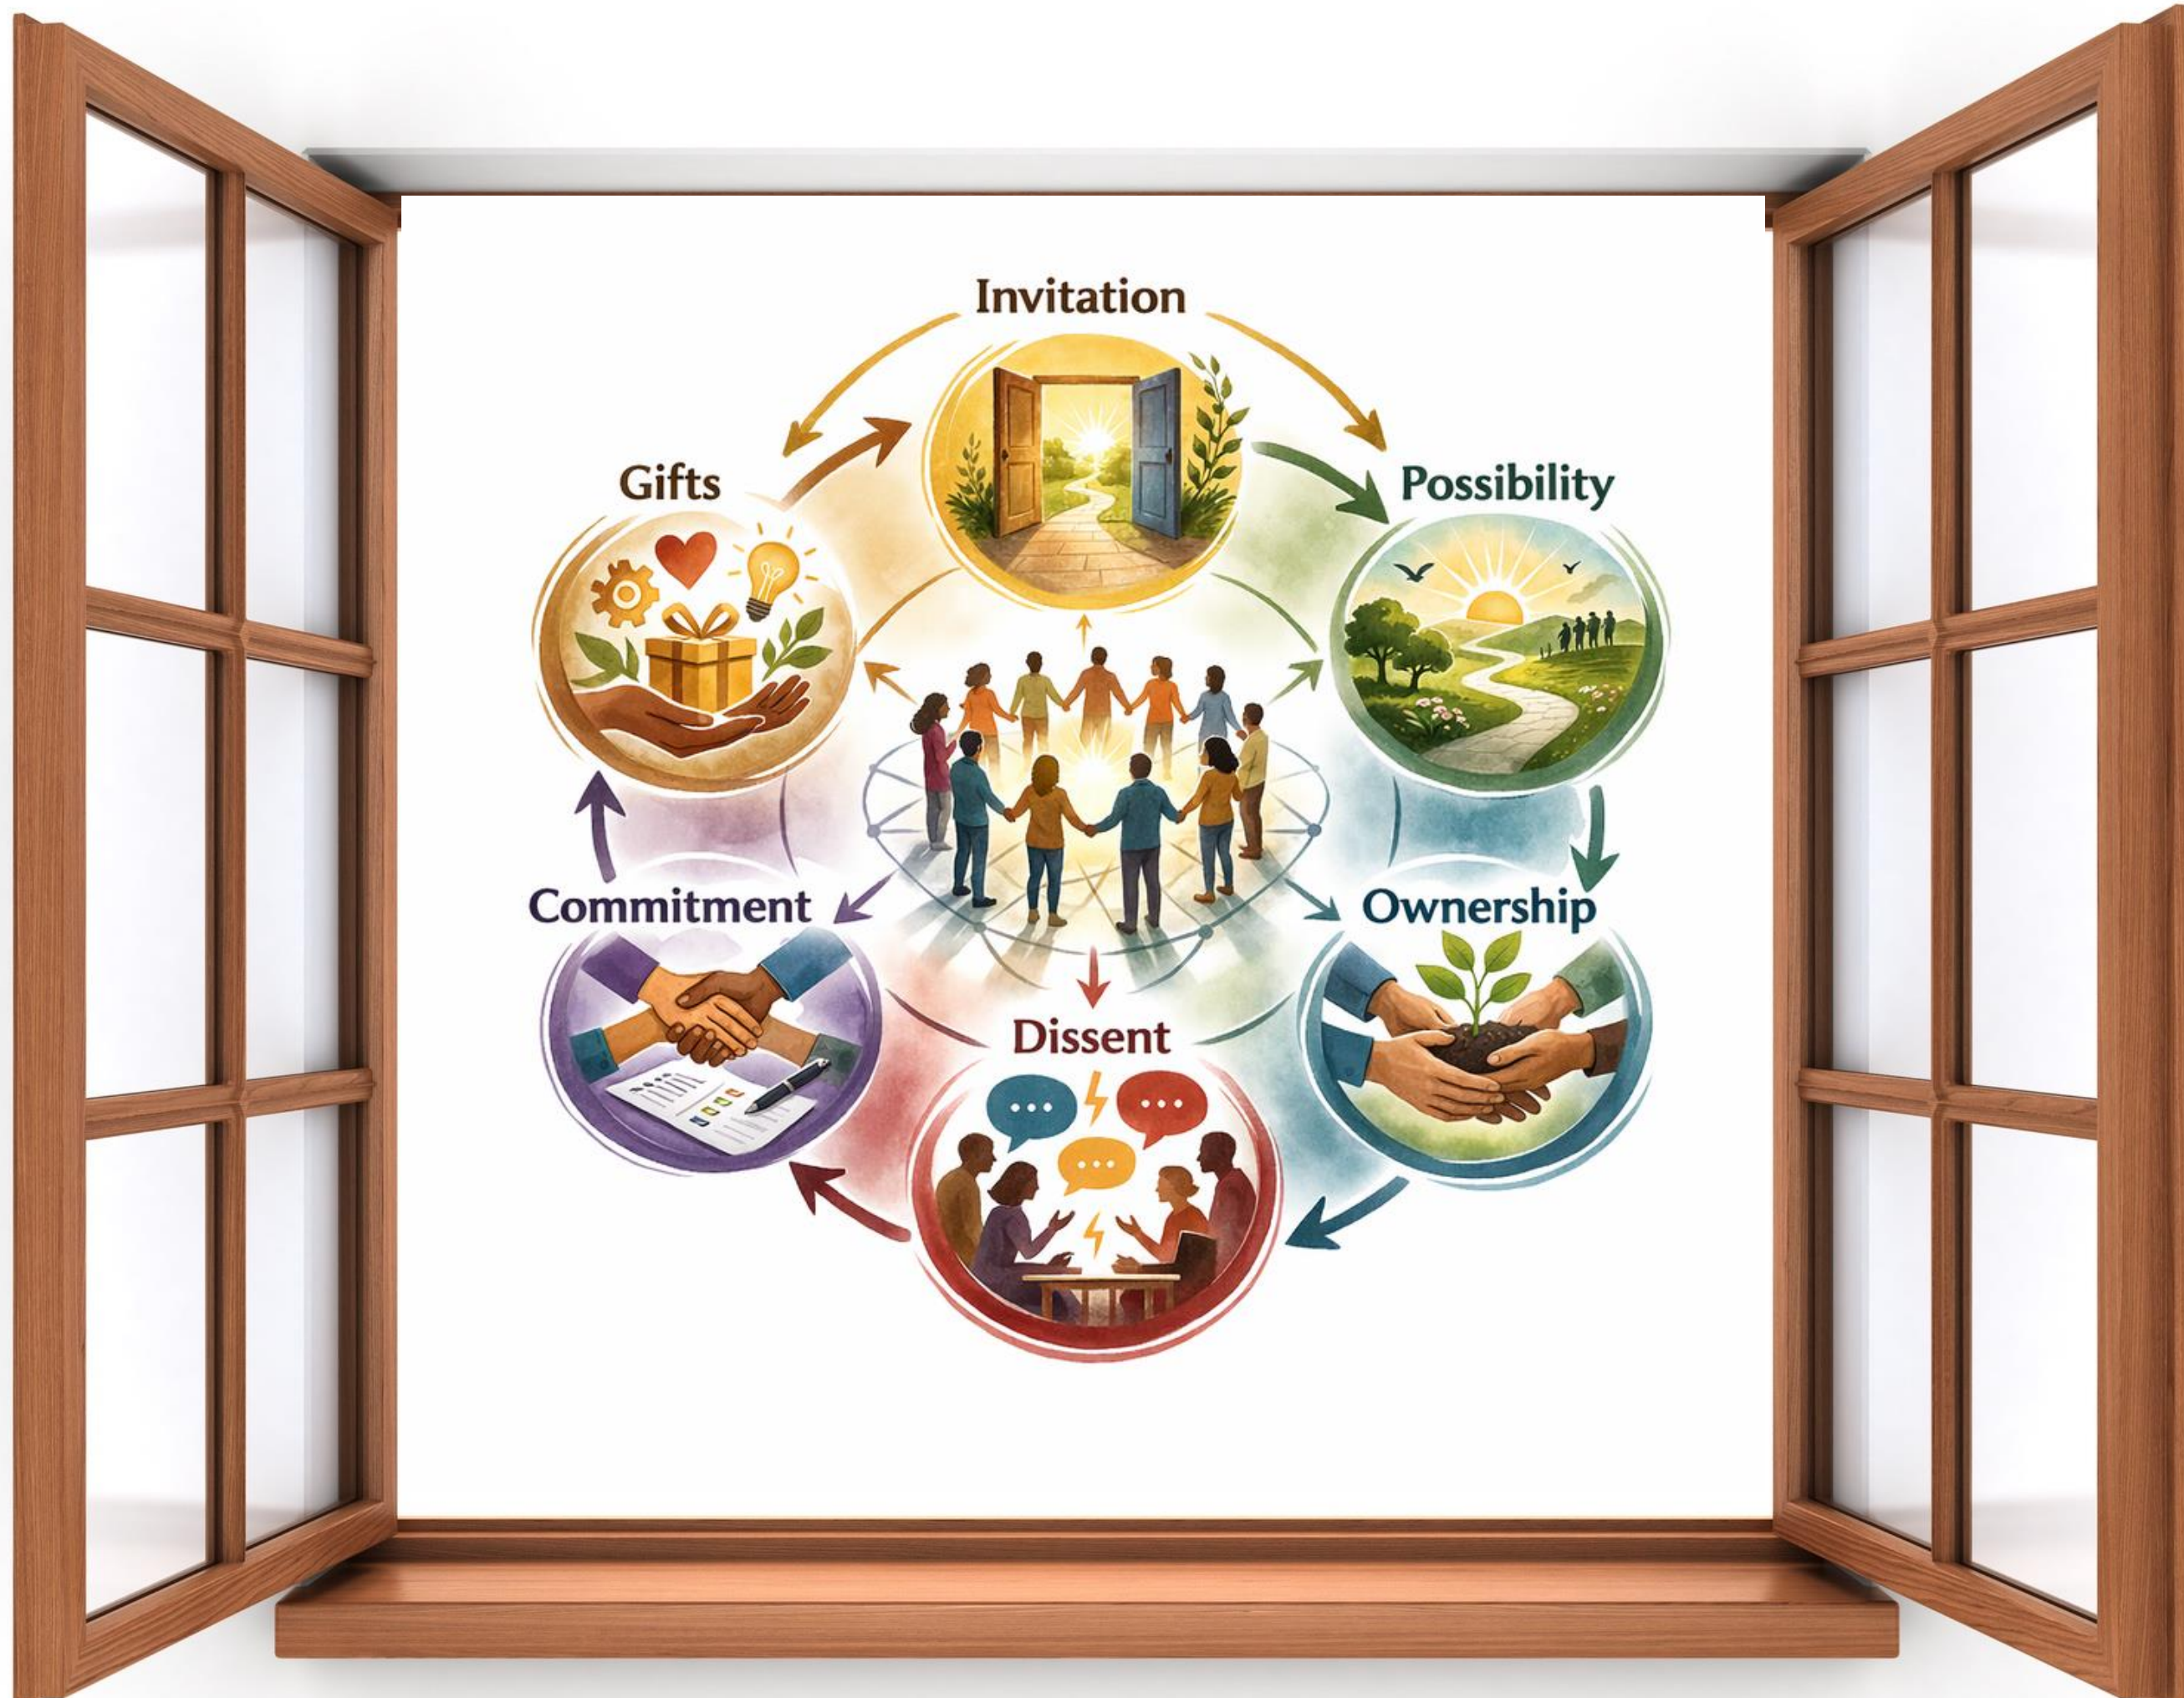

- **Crises decrease**
- **Families thrive**
- **Communities stabilize**

Community Health Belongs to the Community.

Community change begins with individual ownership.

What Strengths We Have?

Sustainability begins with
relationships.

Community ownership
creates lasting change.

One Small Shift

- **One conversation I need to start in my community is...**
 - **One relationship I need to cultivate is...**
- **One way I can tell the story of prevention differently is...**

**Prevention succeeds
when communities steward their own health.**
